

## **LOCAL ONE-STOP CENTER RECERTIFICATION FINAL MOTION**

---

### **BACKGROUND**

The Governor is required to recertify local One-Stop Centers once every two years. In February 2005, the Executive Committee approved a policy and process for the recertification of Local One-Stop Centers as follows:

Each of Maryland's 24 comprehensive One-Stop Centers was visited to determine compliance with WIA law and regulations and to ensure a consistent level of service. This review utilized direct observation, interviews and an extensive questionnaire. A review of MOUs and other materials was also included.

Visits were conducted in June and July and all One-Stop Centers met the compliance requirements of the Workforce Investment Act.

### **LOCAL ONE-STOP POLICY**

**Policy:** In conjunction with the Local Workforce Investment Board recertification process, the Executive Committee requires that Department of Labor, Licensing and Regulation (DLLR) staff review the partners, activities and memoranda of understanding (MOU) of the One-Stop Centers to ensure compliance with the provisions of Section 121 of the Workforce Investment Act (WIA).

### **MOTION**

The GWIB approves the recommendations for local One-Stop centers. With regards to Prince George's County, the Division of Workforce Development should continue to closely monitor compliance/fiscal issues, and receive documentation that progress has continued.
